

FORESTAL MIMOSA LIMITED

SUPPLIERS OF AFRICAN MIMOSA EXTRACTS

MIMTAN AT1 POWDER

A light coloured Mimosa extract which has been modified by chemical means to reduce the astringency of the tannin molecule down to a minimum.

The very low astringency of Mimtan AT1 powder makes this product ideal for very rapid tannin penetration and is especially suitable for tanning wet white stock.

The good lightfast property of Mimtan AT1 enables this product to be used for the manufacture of upholstery and automotive leathers, but is best used in combination with Tara powder where light coloured automotive leather is required.

Typical Analysis

	SLTC Shake Method
Tannins	57.9
Non-Tannins	35.2
Insolubles	0.1
Moisture	6.8
	<hr/> 100.0 <hr/>

Standard Lovibond Tintometer Colour Test (1 cm cell 0.5% tannin solution)

Red	0.8
Yellow	1.5
pH at 50° Bkr (6.7° Bé)	4.7
