

# FORESTAL MIMOSA LIMITED

SUPPLIERS OF AFRICAN MIMOSA EXTRACTS

## MIMOSA GS POWDER

A light coloured spray-dried dedusted Mimosa extract similar in other characteristics to normal Mimosa Powder.

It is suitable for any vegetable tanned leather where a particularly pale colour is required.

It is eminently suitable for retanning chrome leathers which are to be finished in lighter shades.

As a light coloured bleached extract, Mimosa GS is susceptible to oxidation over time hence it is advisable to avoid prolonged storage. This oxidation process can be accelerated on exposure to high temperatures and sun light so it is advisable to store in a well ventilated and covered area.

### Typical Analysis

	SLTC Shake Method	Filter Bell Method
Tannins	67.5	71.0
Non-Tannins	26.0	22.5
Insolubles	0.2	0.2
Moisture	<u>6.3</u>	<u>6.3</u>
	<u>100.0</u>	<u>100.0</u>

### Standard Lovibond Tintometer Colour Test (1 cm cell 0.5% tannin solution)

Red	0.4
Yellow	0.8
pH at 50° Bkr (6.7° Bé)	4.7

### Acids and Salts

Expressed in Milligram Equivalents to pH 6.5 per litre of liquor at 100° Bkr (13° Bé)

Free Acids	30
Salts	130
Mineral Ash	2.5%
